

What should I already know?

- What a biome is
- How to use an atlas to locate countries on a map
- The fruits and vegetables we eat need different climates to grow

What will I know by the end of the unit?

Explain what it means to trade responsibly

- Helps workers get the best price for the produce they grow or make
- Protects workers from price changes and natural disasters
- Helps farmers share ideas
- Gives communities extra money to spend on things like hospitals and schools

Understand the **advantages** and **disadvantages** of locally sourced food

- **Reduces food miles**
- **Provides fresh, seasonal food**
- **Creates jobs in the community**
- **May be more expensive for Customers**
- **Food might go bad quickly without pesticides**

Describe the journey of a cocoa bean

Explain which food has the most negative impact on the environment

Meat contributes around 14.5% of greenhouse gas emissions.
